20th Anniversary of the Americans with Disabilities Act

On July 26, 1990 President George H.W. Bush signed the Americans with Disabilities Act (ADA) into law. The ADA is the landmark civil rights law for people with disabilities. It prohibits discrimination and exclusion based on disability in employment, state and local government, public buildings and services, telecommunications, and more. In 2008, President George W. Bush signed the ADA Amendments Act further clarifying the intent of the ADA and restoring protection to people with disabilities in the area of employment.

Celebrate the 20th Anniversary of the ADA!

Attend the showing of the movie ***Music Within***, the true story of Richard Pimentel, a Vietnam Veteran who played a pivotal role in the development of the Americans with Disabilities Act.

Starring Ron Livingston & Michael Sheen, this MGM production is a 94 minute journey every American should take.

Support Public Transit in St. Joseph & Van Buren Counties

Support Public Transit on August 3rd!

We know how important public transit is to the entire community, and to people with disabilities in particular. State and Federal funding for public transit has been shrinking – having local millages are often the only way public transit services can survive. Do your part to support public transit.

Van Buren County

Voters in Van Buren County will be asked to renew a .248 mil tax for the next four years. Over 65,000 trips were taken this past year in Van Buren County. More information, including a PowerPoint presentation can be found at: <http://www.swmpc.org/pst.asp>.

St. Joseph County

St. Joseph County voters in August will get a request to renew for four years a 0.33-mill property tax originally approved in 2007. The tax generates \$583,000, about 45 percent of the St. Joseph County Transportation Authority's \$1.3 million budget. The transportation agency provided 64,218 rides during its 2008-09 fiscal year.

Advocacy Alert: The Two Year Wait for Medicare Must End!

Why do SSDI recipients have to wait so long for health insurance from Medicare?

People with disabilities who qualify for Social Security Disability Insurance (SSDI) also qualify for medical benefits under Medicare. But what people don't know is that after qualifying for SSDI, most individuals have to wait 24 months after their first benefit check before they can receive those Medicare medical benefits.

This often creates medical and financial hardships for individuals and their families. The new Health Care Reform Act does not change this two-year waiting period.

Take Action: Tell your legislators that the two year wait for Medicare must end! Ask them to support the bill that would end the two year wait for Medicare coverage. If contacting your senator, refer to *S.700: Ending the Medicare Disability Waiting Period Act of 2009*. If contacting your representative, refer to *H.R. 1708: Ending the Medicare Disability Waiting Period Act of 2009*.
