Nursing Facility Transition Program

This program is open to residents of a nursing facility who are receiving Medicaid and desire to live in the community.

Our goal is to provide individuals, regardless of their disability and age, the opportunity to choose community-based living as a viable alternative to nursing facility residency.

Using a person-centered planning approach, we will assist people with returning to their own home, moving in with family/friends, or finding new housing.

The Nursing Facility Transition Program offers information and assistance on the following:

- Housing
- Accessing Household Items
- In-Home Support Services
- Environmental/Home Modifications
- Assistive Technology
- Transportation
- Community Resources
- Social/Recreational Opportunities
